We deploy self-driving taxis in amazing communities
The masterplan

1. Small community taxi deployments
   - Phase 1: Self-driving cars are born 2005-2007
   - Phase 2: Ecosystem enables 10x faster dev 2017

2. Large community taxi deployments
   - 3 months

3. True driverless deployments
   - Sooner than you'd think
A quick video

Deployment #0001
The Villages, San Jose

- 4,000 amazing residents
- 15 miles of challenging road
- 3 mi² of land
- Between 15-25mph speed limits
- On our doorstep
Our passengers
We can’t do this alone
