

ADASTEC

Automated, Shared, Connected

A silhouette of a surfer riding a wave at sunset. The sun is low on the horizon, creating a golden glow in the sky and reflecting on the water. The surfer is positioned on the right side of the frame, with their surfboard visible. The overall mood is serene and adventurous.

DRIVER SHORTAGE

Elon Musk
@elonmusk

Defeating traffic is the ultimate boss battle. Even the most powerful humans in the world cannot defeat traffic.

ADASTEC

Solution

ADASTEC flowride.ai equipped buses transforming public transit

- Clear ROI
- Driverless
- Energy Efficient
- Ready for Deployment
- All Weather
- Factory Fitted
- Accessible
- Connected
- Globally Proven, Locally Available
- Flexible
- Safe

ADASTEC

return of investment

Reduce Energy Costs

EVs reduce the cost of energy
AV optimizes energy usage ~8%

Reduce Labor Costs

AVs reduce the cost of labor

- Not enough drivers
- Labor costs : ~ 3.5 drivers per bus
- \$250K – \$300K per year per bus

Reduce Technology Costs

Sensor/Software costs are acceptable compared to the cost of an EV Bus

ADASTEC

automated

Operating Conditions

- Full Autonomous in the route
- Day/Night working capability
- Operation in Rain/Hazy/Snow
- Controllable Max Speed (25 ml/h)
- No Safety Driver on route (2024)

Routes

- Predetermined
- Pre-mapped
- Simulated
- Mixed traffic conditions
- Multiple Stops

flowride.ai

Supporting wide range of
Operating Design Domains

Automated Driving

- Bus stop handling
- Intersection handling
- Traffic lights
- Crosswalk handling
- Precise localization
- Traffic participants handling

Central Control

- Operation Management
- Mission Management
- Communication
- Data sharing

Deployments

Deployed

- Michigan State University, MI, USA
- Sleeping Bear Dunes National Lakeshore, MI, USA
- Stavanger, Norway
- Ploiesti, Romania
- Tampere, Finland
- Istanbul, Turkiye
- Ankara, Turkiye

Deployment Stage

- Hannover, Germany
- Michigan State University, MI, USA
- Buffalo, NY, USA
- Rotterdam, the Netherlands
- Arbon City, Switzerland

Pilot Deployments

- Busworld, Brussels, Belgium
- RNTP, Clermont- Ferrand, France
- Global Mobility Call, Madrid, Spain
- Istanbul Ataturk Airport, Turkiye
- Bogazici University, Turkiye
- Hannover, Germany
- Berlin, Germany
- Chateauroux, France

National Highway Traffic Safety Administration

Ratings Recalls Risky Driving Road Safety

reduce emissions and improve people's travel opportunities especially in urban areas. Self-driving buses can make it financially sustainable to create new bus lines with shorter routes to and from transit hubs.

A first in Europe

The test is a collaboration between transport companies Vy and Kolumbus using AI and sensor technology from Adastec and monitoring technology from Norwegian startup Applied Autonomy.

Public transit users in Stavanger, Norway, will soon get the opportunity to experience self-driving ... [+] GE
