

The FAV Summit Team, along with the staff at the Rosen Shingle Creek, have been working diligently to ensure the safest environment possible for our attendees. We are committed to maintaining the quality content that FAV Summit participants expect. Below is a brief overview of the enhanced safety measures that will be implemented at this year's conference. Please feel free to reach out to our team with any additional questions by emailing us at info@favsummit.com.

- Per Orange County ordinance, and hotel policy, a mask must be worn in public spaces.
- Hand sanitizing stations are available throughout the property and meeting spaces.
- There will be temperature checks upon entrance to the hotel property.

Safety Measures at the Conference

- We have limited the number of attendees to ensure your ability to safely attend the FAV Summit while maintaining social distance requirements.
- During the general sessions, attendees will be seated in theatre-style with 3-feet between each chair and a 12-foot aisle.
- A staggered schedule allows for enhanced cleaning by hotel staff between sessions.

Safety Measures for Speakers

- Speakers will not share a microphone. Microphones will be sterilized after each use.
- Panelists will be separated by 6 feet.

Food Service & Receptions

- All food and beverage (including coffee breaks) will be served by hotel staff in PPE.
- Meals will be served to guests seated at round tables. Round tables will be limited to 4 per table, rather than the typical 8, and will be spaced 6-feet apart.
- Evening receptions will be held outdoors.

- Podiums will be wiped down after each session, hand sanitizers will be placed on the podium for speakers to use.
- Remote laser pointers will be cleaned after each use.
